

## **Eligible SLCC Students Receive up to \$750 for Higher Education COVID Relief**

Students enrolled in the School of Applied Technology (SAT) or for-credit classes for the 2022 Spring Semester will automatically receive a federal COVID relief check of \$500 or \$750. Qualifying students who are also Pell eligible will receive \$750, and qualifying students who are not Pell eligible will receive \$500. Eligibility for the grant is not dependent upon citizenship status.

Qualifying students signed up for direct deposit will automatically receive the funds in their designated bank account. Those who are not signed up for direct deposit will receive a check in the mail to the address on file with the college. The college plans to distribute the money to students during the third week of Spring semester for students enrolled full term. Students registered for an 8-week course during the second term will receive their funds during that term at a date yet to be determined.

Students who want to take advantage of this grant should make sure to meet registration deadlines for Spring taking SAT or for-credit classes and ensure their direct deposit or refund preferences are current in MYSLCC.

More information about eligibility and distribution can be found on SLCC's [FAQ page](#).
